14.2 Unregulated Services.

Pursuant to this Areawide Contract, the Contractor may provide Services that are not subject to direct rate and tariff regulation by the Commission under a pre-approved alternative (FAR 52.241-8) that demonstrates the Contractor will provide these services under terms and conditions that are competitive and otherwise in the best interests of the Ordering Agency. If, as determined by the Ordering Agency, the conditions for use of this pre-approved alternative cannot be satisfied, then the Ordering Agency should consider the requirement of the Competition in Contracting Act of 1984 and the extent to which a competitive acquisition process is required to select and award a contract for these unregulated services. If an Authorization under this Areawide Contract is utilized, the prices and terms and conditions for unregulated services offered by the Contractor shall be negotiated subject to the requirements of FAR 41.5, and also subject to the general requirements of FAR 52.241-8.

14.3 Repeal of Clauses During Term of Areawide Contract.

If, during the Term of this Areawide Contract, any of the clauses contained in this Article are repealed, revoked, or dissolved by the Government, then such clauses shall no longer be part of this Areawide Contract as of the date of such repeal, revocation, or dissolution. The elimination of these clauses by reason of such repeal, revocation, or dissolution shall not affect the continuing validity and effectiveness of the remainder of this Areawide Contract or other clauses referenced in this Article. The parties' conduct thereafter shall be modified accordingly and reflect the repeal, revocation, or dissolution as related to their respective rights and obligations hereunder.

14.4 Clauses Incorporated in Full Text.

(a) 52.241-7 Change in Rates or Terms and Conditions of Service for Regulated Services (FEB 1995)

As prescribed in 41.501(d)(1), insert a clause substantially the same as the following:

Change in Rates or Terms and Conditions of Service for Regulated Services (Feb 1995)

- (a) The items included in Contractor's Tariff are available to the Government and any Ordering Agency electronically at the Contractor's website, www.atlanticcityelectric.com. Contractor shall provide notice to the Government regarding (1) the filing of an application for change in rates or terms and conditions of service, (2) any changes to rates or terms and conditions of service approved by the Commission, and (3) any regulation promulgated by the Commission concerning matters other than rates which affects this Areawide Contract, in the manner and form proscribed by the Commission in its governing statutes, regulations, and orders. Pending electric rates filings with the New Jersey Board of Public Utilities are also available to the Government and any Ordering Agency electronically at the Contractor's website, www.atlanticcityelectric.com.
- (b) The Contractor agrees that throughout the life of this contract the applicable published and unpublished rate schedule(s) shall not be in excess of the lowest cost published and unpublished rate schedule(s) available to any other customers of the same class under similar conditions of use and service.
- (c) In the event that the regulatory body promulgates any regulation concerning matters other than rates which affects this contract, the Government shall not be bound to accept any new regulation inconsistent with Federal laws or regulations.
- (d) Any changes to rates or terms and conditions of service shall be made a part of this contract by the issuance of a contract modification unless otherwise specified in the contract. The effective date of the change shall be the effective date by the regulatory body. Any factors not governed by the regulatory body will have an effective date as agreed to by the parties.

(End of clause)

14.5 State Taxes.

The contract price excludes all State and local taxes levied on or measured by the contract or sales price of the services or completed supplies furnished under this contract. The Government agrees either to pay the amount of the state or local taxes to the Contractor or provide evidence necessary to sustain an exemption from such taxes.

ARTICLE 15. SMALL BUSINESS SUBCONTRACTING PLAN.

15.1. Attached hereto and made a part hereof by reference is a SUBCONTRACTING PLAN FOR SMALL BUSINESS CONCERNS, SMALL BUSINESS CONCERNS OWNED AND CONTROLLED BY SOCIALLY & ECONOMICALLY

DISADVANTAGED INDIVIDUALS, HUB ZONE BUSINESS CONCERNS, WOMAN OWNED SMALL BUSINESS CONCERNS, VETERAN-OWNED SMALL BUSINESSES CONCERNS AND DISABLED VETERAN-OWNED BUSINESSES negotiated between the Contractor and the Government, which is applicable on a company wide basis pursuant to the requirements of Section 211 of P.L. 95-507, as amended (15 U.S.C. 637(d)). The Contractor expressly understands that this subcontracting plan is an annual plan and hereby agrees to submit a new subcontracting plan by November 30th of each year during the Term of this Areawide Contract.

15.2. Information and announcements concerning current developments in the GSA Small Business Subcontracting Program are available on the GSA Energy Division web site accessible via <http://www.gsa.gov/energy>.

The report shall be submitted electronically utilizing the Small Business Administration's Electronic Subcontracting Reporting System. The website address of the system can be found at <http://www.esrs.gov>.

ARTICLE 18. UTILITY ENERGY SERVICE CONTRACTS.

18.1. Measurement and Verification: An ECM will not be normally considered unless a net overall energy or water usage or cost reduction can be demonstrated and verified. Verification standards for energy projects are established in the M&V Guidelines Measurement and Verification for Federal Energy Management Projects, published by the Department of Energy's Federal Energy Management Program (FEMP).

18.2. Unless otherwise provided by law or the terms and conditions set forth in a particular Authorization for Energy Management Services, the following provisions shall apply:

- (a) Payment for energy conservation measures, when authorized as an Energy Management Service (EMS), shall be equal to the direct cost of capital or financing amortized over a negotiated payment term commencing on the date of acceptance of the completed installation;
- (b) The payment term for Authorizations involving energy conservation measures shall be calculated to enable the Ordering Agency's payment(s) to be lower than the estimated cost savings to be realized from its implementation. In no event, however, shall this term exceed eighty percent (80%) of the useful life of the equipment/material to be installed.

18.3. Subcontracting: The Contractor shall have the right to enter into a subcontract with a third-party Energy Service Company ("ESCO"), which shall include unregulated affiliates of Contractor, to perform the project development and project management functions under the Authorization. Contractor or any such ESCO designated by Contractor may perform any or all of the EMS requested by an Ordering Agency through subcontractors, (each an "EMS Subcontractor"). EMS Subcontractors shall be competitively selected in accordance with FAR 52.244-5 (EMS Subcontractor selection shall be based on cost, experience, past performance and other such factors as Contractor and the Ordering Agency may mutually deem appropriate and reasonably related to the Government's minimum requirements. Upon request by the Ordering Agency, the Contractor shall make available to the Contracting Officer all documents related to the selection of an EMS Subcontractor. In no event shall the service be provided by an EMS Subcontractors listed as excluded from Federal Procurement Programs maintained by GSA pursuant to FAR 9.404.

18.4. For all Authorizations involving ECMs, it is desirable to have a warranty clause that addresses the specific needs and requirements of the work being performed and equipment that is to be provided by the Contractor; however, in the absence of a warranty clause in the Authorization, the following language will serve as the default clause:

The Contractor shall pass through to the Ordering Agency all warranties on equipment installed or provided by it or its subcontractors on Government property with the following representation:

CONTRACTOR ACKNOWLEDGES THAT THE UNITED STATES OF AMERICA WILL OWN OR LEASE THE EQUIPMENT AND/OR MATERIALS BEING INSTALLED OR SUPPLIED HEREUNDER, AND, ACCORDINGLY, AGREES THAT ALL WARRANTIES SET FORTH HEREIN, OR OTHERWISE PROVIDED BY LAW IN FAVOR OF THE COMPANY SHALL INURE ALSO TO THE BENEFIT OF THE UNITED STATES AND THAT ALL CLAIMS ARISING FROM ANY BREACH OF SUCH WARRANTIES OR AS A RESULT OF DEFECTS IN OR REPAIRS TO SUCH EQUIPMENT OR SUPPLIES MAY BE ASSERTED AGAINST CONTRACTOR OR MANUFACTURER DIRECTLY BY THE UNITED STATES OF AMERICA.

18.5. The Ordering Agency shall submit to GSA a copy of all preliminary energy audit results or ECM analysis for review. Upon written acknowledgement of the aforementioned information, a copy of which shall be provided by the Ordering Agency to the Contractor, the Ordering Agency may negotiate Authorizations with the Contractor for the implementation of the ECMs described in the preliminary documents. The Ordering Agency shall provide GSA with copies of fully executed Exhibit "C" Authorizations for any EMS resulting from approved energy audits, including any applicable attachments, at the address provided in Article 16.1.

18.6. Contractor's Responsibilities under this Areawide Contract:

- (a) The Contractor shall not provide EMS to Federal facilities under this Areawide Agreement unless the facility is located within a geographic area that the Contractor is authorized to provide services.
- (b) The work that is to be performed under the Authorization for EMS shall be limited to work resulting in a direct reduction in energy or water usage or cost (see Article 1.1(j)) and any modifications or repairs that are necessary as a direct result of the installation of the ECM.

18.7. Guaranteed Savings and Scoring of Utility Energy Service Contracts (UESCs) by the Ordering Agency(ies):

UESC's that meet the definition of "Energy Management Service" ("EMS") prescribed in Article 1.1(k) of this Areawide Contract, and which follow the guidance prescribed in OMB Memoranda M-12-21 and M-98-13, may be scored for budgetary purposes by the Ordering Agency(ies) on an annual basis if the UESC requires:

- (a) Energy savings performance assurances or guarantees of the savings to be generated by improvements, which must cover the full cost of the Federal investment for the improvements;
- (b) Measurement and verification (M&V) of savings through commissioning and retro-commissioning; and
- (c) Competition or an alternatives analysis as part of the selection process prior to entering into a UESC

18.8. Performance Verification Plan: In order to assure the necessary fiscal responsibility consistent with sound program management, alternatively financed UESCs should include a plan for continued action during the contract to assure continued accomplishment of expected performance (this is referred to as a Performance Assurance or Performance Verification Plan). The level of performance assurance and its associated costs should be worth the level of certainty of cost savings that the Ordering Agency reasonably deems to be necessary. Each alternatively financed UESC should have a performance assurance plan to accomplish this. Such plans should provide for the separate evaluation of each energy conservation measure and combination of measures in order to identify the appropriate level of needed performance assurance activity based on the technical complexity, potential savings magnitude, and specific situation. (See Overview of the Measurement and Verification for Federal Energy Projects Guidelines Version 2.2 or FEMP Fact Sheet - Performance Assurance for Multi-Year Contracts Under the Utility Incentive Program for further guidance.) Inclusion of and compliance with the performance assurance plan in the specific project task order satisfies the requirements of Contractor under section 18.1 and 18.7.

ARTICLE 19. MISCELLANEOUS.

19.1. Contract Administration: The Ordering Agency shall assist in the day-to-day administration of the Service being provided to it under an Authorization.

19.2. Anti-Deficiency: Unless otherwise authorized by Public Law or Federal Regulation, nothing contained herein shall be construed as binding the Government to expend, in any one fiscal year, any sum in excess of the appropriation made by Congress for that fiscal year in furtherance of the matter of any Authorization executed in accordance with this Areawide Contract or to involve the Government in an obligation for the future expenditure of monies before an appropriation is made (Anti-Deficiency Act, 31 U.S.C. 1341.A.1).

19.3. Obligation to Serve: Nothing contained in this Areawide Contract shall obligate the Contractor to take any action which it may consider to be detrimental to its obligations as a public utility.

19.4 Term of Authorizations: It is recognized that during the Term of this Areawide Contract, situations and/or requirements may arise where it may be desirable that the term of service to an Ordering Agency's facility extend beyond the Term of this Areawide Contract. In such event, the particular Authorization involved may specify a term extending beyond the Term of this Areawide Contract, provided that it is within the contracting authority of the Ordering Agency and appropriate termination liability provisions have been negotiated between the Contractor and Ordering Agency to address unamortized balances for connection charges and/or financing charges associated with EMS projects.

19.5. Indemnification: Any indemnification language contained in standard form agreements executed between the Ordering Agency and the Contractor shall be binding upon the Federal Government only to the extent authorized by law, opinions of the Government Accountability Office and the Federal Torts Claims Act.

19.6. Authorization Procedure: The execution of an Authorization by Contractor and an Ordering Agency shall not supersede a previously executed Authorization addressing the same service unless specifically stated. Allowable terms of Authorizations shall be consistent with the guidance and policy set forth in Article 2.2 of this Areawide contract.

19.7. Construction Wage Rate Requirements: Since this Areawide Contract does not involve the regulated utility company performing on a Federally funded or assisted contract for the construction, alteration, or repair of a public work and/or public facility, the Construction Wage Rate Requirements (previously known as the Davis Bacon Act) do not apply to the work to be performed by the regulated utility company in connection with the provision of regulated utility services. However, if a determination by the Department of Labor (DOL) differs, the regulated utility company will be solely responsible for any financial liability for any contrary determination by DOL.

IN WITNESS WHEREOF, the parties have executed this Areawide Contract as of the day and the year first above written.
