Note that, per [Addendum 1](#) to the class deviation CD-2019-11, the representation clause at GSAR 552.204-70 is cancelled. The cancellation of the clause at GSAR 552.204-70 means that the clause no longer needs to be added to any solicitations or contracts, no longer requires offerors or contractors to submit any representations or disclosures, and may be removed from solicitations and contracts at contracting officers' convenience.

<sup>1</sup> Modifications to include the updated reporting clause at FAR 52.204-25 (AUG 2020) must be bilateral.

<sup>5</sup> The requirements for **existing** orders are the same before and after the parent contract is modified to include the updated reporting clause at FAR 52.204-25 (AUG 2020).

<sup>6</sup> Though not required, the reporting clause at FAR 52.204-25 (AUG 2020) may be included in BPAs at contracting officers' discretion.

Note that, per [Addendum 1](#) to the class deviation CD-2019-11, the representation clause at GSAR 552.204-70 is cancelled. The cancellation of the clause at GSAR 552.204-70 means that the clause no longer needs to be added to any solicitations or contracts, no longer requires offerors or contractors to submit any representations or disclosures, and may be removed from solicitations and contracts at contracting officers' convenience.

<sup>7</sup> For orders and calls under: (1) indefinite delivery contracts (including IDIQs, FSS, GWACs and MACs); (2) BPAs; and (3) other requisition-based contracting vehicles, where the order or call does not require a solicitation, quotation, request for quote (RFQ), or notice of intent to place an order or call, the Section 889 provisions and clause are not required.

<sup>8</sup> If the reporting clause at FAR 52.204-25 (AUG 2020) is required in a solicitation or a notice of intent to place an order or call, the reporting clause at FAR 52.204-25 (AUG 2020) is also required in the resultant contract, order, or call.
